

Worried About The Health of Your Building?

Hire a Knowledgeable and Reputable Building Inspector to Help You Determine What Needs to be Done and When...

All Buildings Need Maintenance and Many Need Help Solving Existing Problems:

- Experiencing roof/skylight leaks in the top floor units?
 - Noticing water marks on the walls/ceilings?
 - Noticing water marks around doors and windows?
 - Not sure if your porch/deck/balcony is SAFE?
- Have white mineral deposits forming on your bricks or block?
 - Getting water in the basement areas?
- Not sure what annual maintenance needs to be done to your building?
 - Not sure how to prioritize capital expenditures?
 - Not sure which contractors to call to perform work?
 - Not sure how much work should cost?
 - Not sure what to ask the contractors you interview?

Worried you won't be able to sell if your building needs repairs?
